### § 119-2 JASPER COUNTY CODE

#### Sec. 119-2. Definitions.

Manufactured home, Class A, means a manufactured home bearing a label certifying it is constructed in compliance with the Federal Manufactured Home and Standards Act 42 USC 5401—5445 (the HUD Code, which became effective on June 15, 1976), and satisfying each of the following additional criteria:

- (1) The home has a length not exceeding four times its width: **No single wifes are allowed in the county and they are only allowed in AG zoning.**
- (2) The pitch of the home's roof has a minimum vertical rise of four feet for each 12 feet of horizontal run. The home shall have eaves with a minimum projection of 12 inches;
- (3) The entry to the home facing the road shall have a porch, deck, or entry area extending at least six feet out from the home, and having a minimum width of eight feet;
- (4) All other entrances shall have a deck or landing at least four feet by four feet or the size of the opening;
- (5) The exterior siding consists of wood, hardboard, vinyl, or plastic siding material comparable in composition, appearance, and durability to exterior siding commonly used in standard residential construction;
- (6) A continuous foundation wall or skirt, unpierced except for required ventilation and access, and constructed of brick, block, or stone, installed so that it encloses the area located under the home to the ground level. Such wall must meet the standards specific in ANSI A225.1;
- (7) The tongue, axles, transporting lights, and towing apparatus are removed after placement on the lot and before occupancy.
