UPDATED SERVICE DELIVERY STRATEGY FOR Jasper COUNTY

We, the undersigned authorized representatives of the jurisdictions listed below, certify that:

1. We have reviewed our existing Service Delivery Strategy and have determined that:
(Check only one box for question #1)

- A. Our Strategy continues to accurately reflect our preferred arrangements for providing local services throughout our county and no changes in our Strategy are needed at this time; or
- B. Our Strategy has been revised to reflect our preferred arrangements for providing local services.

If Option A is selected, only this form, signed by the appropriate local government representatives must be provided to DCA.

If Option B is selected, this form, signed by the appropriate local government representatives, must be submitted to DCA along with:

- an updated "Summary of Service Arrangements" form (page 2) for each local service that has been revised/updated;
 - any supporting local agreements pertaining to each of these services that has been revised/updated; and
 - an updated service area map depicting the agreed upon service area for each provider if there is more than one service provider for each service that has been revised/updated within the county, and if the agreed upon service areas do not coincide with local political boundaries.
2. Each of our governing bodies (County Commission and City Councils) that are a party to this strategy have adopted resolutions agreeing to the Service Delivery arrangements identified in our strategy and have executed agreements for implementation of our service delivery strategy (O.C.G.A. 36-70-21);
3. Our service delivery strategy continues to promote the delivery of local government services in the most efficient, effective, and responsive manner for all residents, individuals and property owners throughout the county (O.C.G.A. 36-70-24(1));
4. Our service delivery strategy continues to provide that water or sewer fees charged to customers located outside the geographic boundaries of a service provider are reasonable and are not arbitrarily higher than the fees charged to customers located within the geographic boundaries of the service provider (O.C.G.A. 36-70-24 (2));
5. Our service delivery strategy continues to ensure that the cost of any services the county government provides (including those jointly funded by the county and one or more municipalities) primarily for the benefit of the unincorporated area of the county are borne by the unincorporated area residents, individuals, and property owners who receive such service (O.C.G.A. 36-70-24 (3));

6. Our Service Delivery Strategy continues to ensure that the officially adopted County and City land use plans of all local governments located in the County are compatible and nonconflicting (O.C.G.A. 36-70-24 (4)(A));
7. Our Service Delivery Strategy continues to ensure that the provision of extraterritorial water and sewer services by any jurisdiction is consistent with all County and City land use plans and ordinances (O.C.G.A. 36-70-24 (4)(B)); and
8. Our Service Delivery Strategy continues to contain an agreed upon process between the county government and each city located in the county to resolve land use classification disputes when the county objects to the proposed land use of an area to be annexed into a city within the county (O.C.G.A. 36-70-24 (4)(C))' and;
9. DCA has been provided a copy of this certification and copies of all forms, maps and supporting agreements needed to accurately depict our agreed upon strategy (O.C.G.A. 36-70-27).

Instructions:

County: JASPER

1. What incompatibilities or conflicts between the land use plans of local governments were identified in the process of developing the service delivery strategy?

Jasper County and its cities of Monticello and Shady Dale prepared a joint comprehensive land use plan in 1998. As a result, potential conflicts were eliminated during the planning process. There were no incompatibilities or conflicts identified during the service delivery strategy negotiations.

2. Check the boxes indicating how these incompatibilities or conflicts were addressed:

- amendments to existing comprehensive plans
adoption of a joint comprehensive plan
other measures (amend zoning ordinances, add environmental regulations, etc.)

Note: If the necessary plan amendments, regulations, ordinances, etc. have not yet been formally adopted, indicate when each of the affected local governments will adopt them.

If "other measures" was checked, describe these measures:

3. Summarize the process that will be used to resolve disputes when a county disagrees with the proposed land use classification(s) for areas to be annexed into a city. If the conflict resolution process will vary for different cities in the county, summarize each process.

Each city will notify the county of proposed annexations, including proposed land use, the county will respond within 10 business days with bona fide objections or no objections. With no objections, city proceeds. If there are objections, the city (a) complies with conditions, (b) stops the annexation (c) denies objections, seeks declaratory judgment or initiates mediation. If there is no resolution, the annexation will not proceed.

4. What policies, procedures and/or processes have been established by local governments (and water and sewer authorities) to ensure that new extraterritorial water and sewer service will be consistent with all applicable land use plans and ordinances?

Jasper County, Monticello and Shady Dale have a comprehensive land use plan in place. Each local government has a zoning ordinance and zoning board. As a result of the land use plan and zoning restrictions in effect, extra-territorial water and sewer services by any jurisdiction will be consistent with all applicable land use plans and ordinances.

The City of Shady Dale's water supply is from wells. The cities of Monticello and Shady Dale

service area are delineated on the attached maps. The service for each city is funded by user fees.

Turtle Cove has a water system from wells, as does the Alcovy Water Authority serving areas in the unincorporated area. Fees also fund these water suppliers. Attached maps show the respective service areas.

Fees for water and sewer services provided outside the city limits of municipal providers shall not be arbitrarily higher than fees for city residents. If any government disputes the reasonableness of water and sewer rate differentials, that governing body may institute the procedures provided in OCGA 36-70-23(2)(b).

The Jasper County Water and Sewer Authority was created by act of the 1999 State Legislature. The Authority consists of nine members and its purpose is to develop plans of action for the creation of a water supply and water and sewer systems throughout Jasper County. Funding has not been determined.

SENIOR CITIZEN SERVICES

The Jasper County Senior Citizen building is located on county land on State Hwy 212 adjacent to Sheriff's Department and Jail, 911 Building and Public Works Center. This program provides a variety of services for individuals aged 60 or over. The geographic service area is countywide. Funding is received via Title 111 of the Older American Act, United Way, local donations and supplements from the county general fund.
